Here is the format of the term paper presentations scheduled for Apr 11 and Apr 13.

1) Schedule is online on the course website – students have been grouped based on the topic of term paper.
2) Presentations spread across two days; check which day you are scheduled for.
3) Format:
    a. Every student gets three minutes to talk about their paper
    b. What was the issue? What are the different perspectives on the issue? What did you learn?
4) Each student needs to upload their own slides on TSquare by 1pm on the day before the first day of the presentations (Apr 10)
5) After all slides are in, based on the assigned groups in the schedule, single slide deck for each group will be compiled by the instructor and TA. We will use these slide decks in the class during presentations.
